

# ARRIERA

**Arriera, collage theatre from here and there**

Arriera is a theatre company specializing in paper and object theatre. The company's productions explore staging from contemporary languages, performance, document theatre and visual poetry.

The mix, the collage, goes by definition in the direction that the company is following because where paths intersect, new perspectives arise. The Company's proposals mix different stage disciplines with live plastic creation around paper, ink and clay.

The company is very interested in small and medium-sized pieces and its proposals seek adaptability to the street and halls, and to unconventional exhibition spaces. We also create scenic installations in search of surprise, curiosity and interaction with the public.

Our pieces are aimed at both children and adults. We like to view the big and small, and have one eye in the telescope and another in the microscope.

We are moved by the creation of stories in which gender perspective and appreciation of differences are related, because we have seen that among the stones on the road those that are different are precious.

## **María Ramírez Luengo**

Actress, plastic and scenic artist. Producer and director of the ARRIERA Company.

She has trained in interpretation, dance, scenic oral narration, and manipulation of puppets and objects.

He is currently investigating the body and the object, documentary theater and the use of plastic techniques on stage.

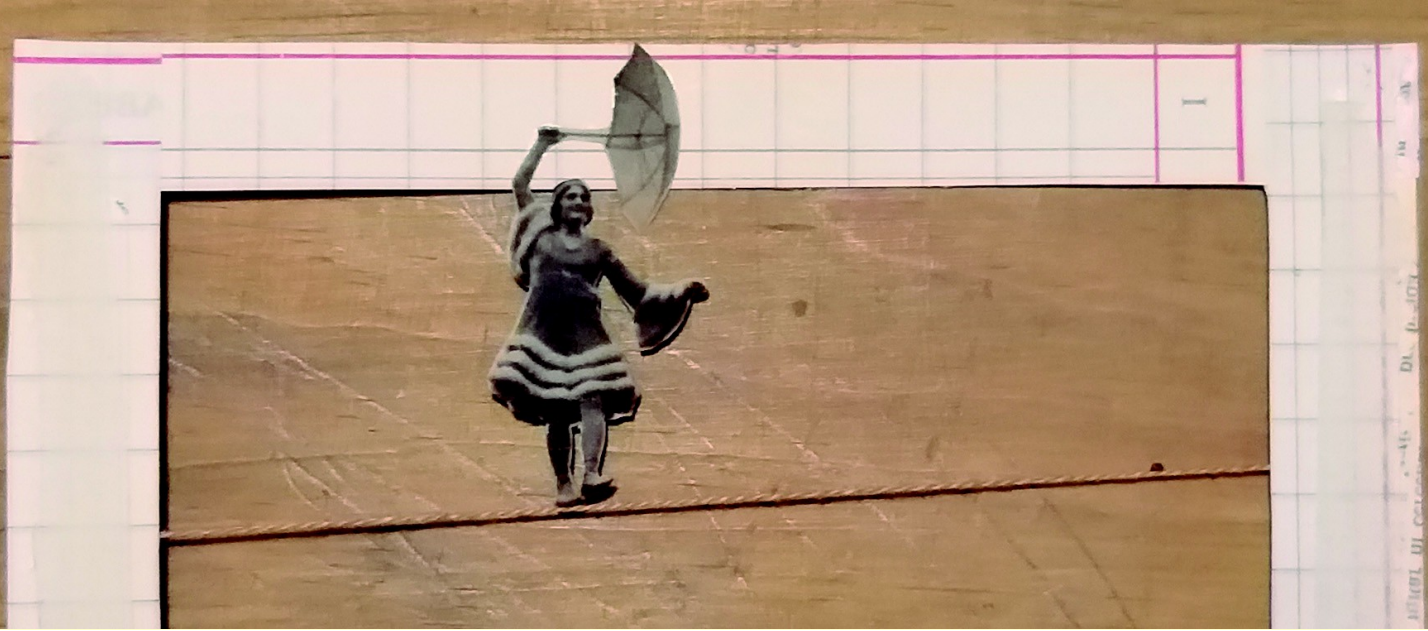

## **Samuel Cano Braojos**

Actor, multi-instrumentalist musician and multidisciplinary artist. He is interested in plastic creation on stage, contemporary dance, performance, and the theater of masks, puppets and objects.

Member of the multidisciplinary creation space *La Deriva*, where he develops the experimental project of olfactory art *Aromalario*. Currently he also works in the field of street art and urban intervention in contemporary site-specific art projects.

The company develops other activities related to the scene: training, custom pieces, creation for other companies, plastic works and social intervention projects.

We like to move here and there.
